• 27-Jan-2023 to 26-Feb-2023

**Work on:** Web Based Mass Mail Dispatcher **At:** Exposys Data Labs (Bengaluru)

## **Project**

### • Face Recognition Attendance System

The system compares the detected faces with a dataset of known faces, allowing it to identify individuals.

#### • PMC Data Visualization

PMC Data Visualization which involved collecting data on the problems faced by people in their areas related to cleanliness, water, roads, footpaths, and other such issues.

#### Sudoku Solver

This is a Python code for creating a Sudoku puzzle using Pygame. It allows the user to fill in cells and checks the validity of each entry. It then solves the puzzle using the backtracking algorithm.
